HOWARD'S IMPROVED AMERICAN PLOUGHS.

The above represents the well known 'Eagle 75' Plough which, and other sizes, are manufactured by J. & F. HOWARD in the highest style of workmanship, and tens of thousands are in use. Several manifest improvements have been introduced. As shown in the engraving, the body clips the beam, and the 'centre draught' is also taken from the strongest part of the iron body, thus giving an additional security against the beam breaking at the bolt holes—a very common occurrence with American made Ploughs.

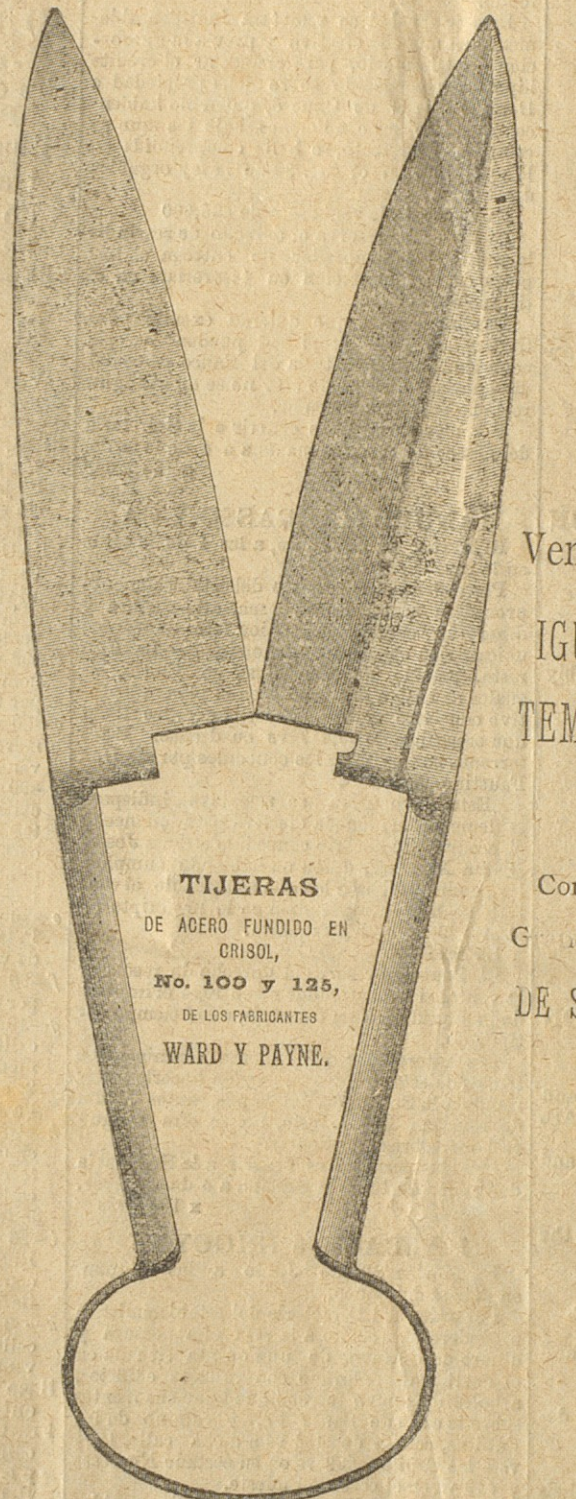

The beam is made of Oak, and can if required be fitted with a steel plate on each side.

The shares are joined upon J. & F. HOWARD'S well known patented water-chill process, which renders them not only tough and hard, but ensures their wearing better and longer than made when by any other process.

Prices of the various sizes, Nos. 19, 23, 25, 26, 55, 75, &c., sent on application.

The above Implements kept in Stock by the Principal Hardware Merchants.

Carlow Lay College
ST. MARY'S PREPARATORY SCHOOL
Knockbeg, Queen's County.

In Carlow Lay College students are prepared for the Army, for the various professions, and for Degrees in Arts in the University of London.

Amongst Catholic Colleges, Carlow ranks next to Ushaw and Stonyhurst in the number of her students who are graduates and undergraduates of the London University. An Examination from the University of London has been received from Carlow College, to confer Degrees in Arts.

There is a special class under a competent master to prepare students for commercial life, and no exertion is spared to secure the progress of the pupils in the junior classes. The College is handsomely situated in a park of six acres, which forms extensive recreation grounds for the students.

Dysentery, Cholera, Fever, Ague, Coughs, Colds, &c.
Dr. J. COLLIS BROWNE'S
(Ex Army Medical Staff)
CHLORODYNE
IS THE ORIGINAL AND ONLY GENUINE.

CAUTION.—Vice-Chancellor Sir W. P. Wood stated that Dr. J. Collis Browne was undoubtedly the inventor of Chlorodyne; that the story of the defendant, Freeman, being the inventor was wholly untrue, which he regretted had been sworn to. Eminent hospital physicians of London stated that Dr. J. Collis Browne was the discoverer of Chlorodyne; that they prescribe it largely, and mean, as other than Dr. Browne's—See Times, July 12th 1894.

The Public, therefore, are cautioned against using any other than Dr. J. Collis Browne's Chlorodyne.

REMEDIAL USES AND ACTION.
This invaluable remedy produces quiet, refreshing sleep, relieves pain, calms the system, restores the deranged functions, and stimulates healthy action of the secretions of the body, without creating any of those unpleasant results attending the use of opium. Old and young may take it at all hours and times when required, while medical men extol its virtues most extensively.

CHLORODYNE is admitted by the profession to be the most wonderful and valuable remedy ever discovered.

CHLORODYNE is the best remedy known for coughs, consumption, bronchitis, asthma.

CHLORODYNE effectually checks and arrests those too often fatal diseases—Diphtheria, Fever, Croup, Ague, Cholera and Dysentery.

CHLORODYNE acts like a charm in Diarrhoea, and is the only specific.

CHLORODYNE effectually cuts short all attacks of Epilepsy, Hysteria, Palpitations and Spasms.

CHLORODYNE is the only palliative in Neuralgia, Rheumatism, Gout, Cancer, Toothache, Menstrual, &c.

Extractions from Medical Opinions.
The Right Hon. Earl Russell communicated to the College of Physicians and J. T. Daventry, that he had received information to the effect that the only remedy of any service in Cholera was Chlorodyne. See Lancet, Dec. 31st, 1864.

From A. Montgomery, Esq., late Inspector of Hospitals, Bombay. "Chlorodyne is the most valuable remedy in Cholera, Typhoid, and Dysentery. To it I fairly owe my restoration to health, after eighteen months' severe suffering, and when other remedies had failed."

Dr. Lowe, Medical Missionary in India, reports (December 1865) that in nearly every case of Cholera in which Dr. J. Collis Browne's Chlorodyne was administered, the patient recovered.

Extracted from the General Board of Health, London, as to its efficacy in Cholera. "So strongly are we convinced of the immense value of this remedy, that we cannot too forcibly urge the necessity of adopting it in all cases."

See leading article, *Therapeutical Journal*, August 1st, 1866, which states that Dr. J. Collis Browne was the inventor of Chlorodyne, that it is always right to use his preparation when Chlorodyne is ordered.

CAUTION. None genuine without the words "Dr. J. Collis Browne" on the Government Stamp. Beware of cheap imitations.
